THE tide of travel to Europe is unprecedented, ocean steamer agents declaring that it is fully greater by 10,000 this year than ever before. A tour of Europe in former times could only be indulged in by the rich and well-to-do. Now the man or woman of even moderate means who has not been to Europe or is not going this year is more and more of a novelty with each recurring summer. There used to be in high tariff newspapers elaborate computations of the thousands of dollars that this foreign exodus cost American merchants each year, but these have ceased during recent times, possibly because the "demnition total" has reached dimensions that are painful to contemplate.

THE preachers have been discussing the evils of divorce with no marked effect. The lawyers are now examining the question and perhaps they will meet with greater success. The Ohio State Bar, in session at Putin-Bay, adopted resolutions defining "gross neglect," setting a period of six months between the granting of the divorce and the entering of the decree; prohibiting remarriage for one year excepting as to the parties divorced being married again to each other; having an attorney represent the noncontesting at the trial and prohibiting or regulating marriages where either party has been insane, is vicious or afflicted with inherited or transmissible disease.

A NEW YORK Judge puts himself on record in favor of Sunday baseball by dismissing a man charged with holding a game on that day. Said he: "Young men, whether playing the game or watching it, are better off on Sunday than if they were loafing about the streets or drinking in the back rooms of saloons. Clean sport in the open air is always a fine thing. On Sunday as well as any other day." Who is there to gainsay the truth of the statement?

MR. CARNEGIE says in his latest interview that riches do not make a man happy. There is nothing new in the statement, but the fact that a rich man has added his testimony to the assertion will not keep any of us from trying to find out by personal experience whether it is true or not.

A YOUNG lady at Reading, Pa., is suing her "steady company for seven years" for breach of promise. She has an engagement ring with his initials in it and a pile of love letters over a foot high. She seems to have the dead wood on the recalcitrant swain.

A NEWPORT dispatch says that the assassination fund, called by some defense fund, for Caleb Powers, amounts to nearly \$90,000, which is but another proof that all the fools are not dead yet.

### POLITICAL.

Seven hundred and sixty laws were added to the statute books of New York State during the latest legislature session.

The report that Thomas F. Ryan, the New York multimillionaire, would be a candidate for United States Senator to succeed John W. Daniel, of Virginia, is denied by him and his friends. The Hopkinsville Kentuckian says that "Judge Thomas H. Paynter spent last week at Dawson and also visited Paducah a day or two. The first district is turning out to be a Paynter stronghold in the approaching Senatorial race."

There is believed to be an understanding between the new owners of the controlling interest in the Equitable and the Harrison financial forces to prevent an investigation of the society's affairs, at the present extra session of the New York Legislature.

The President has written a letter to the Attorney General urging that a thorough investigation of the cotton report scandal be made, with a view to the punishment of Assistant Statistician Holmes, whom the President declares he considers more guilty than if he had stolen money to the amount he is reputed to have accumulated through the betrayal of the figures of the Government.

In a fierce fight near Olympia, John Griffith was stabbed through the lung and James Schultz's left hand was severed at the wrist, and Griffith is not expected to live. James Jackson, the man who did the cutting, surrendered to the authorities.

At Lee City, Frank Smith and his two sons, William and Manfred, met death at the hands of Scott McQuinn. The cause of the tragedy is supposed to date back six years, at which time William Smith killed Meredith McQuinn, the 14-year-old brother of Scott McQuinn.

The Cumberland grand jury will make an investigation of the murder of James Skinner, the wealthy lumberman, who was decoyed out of Burkesville on the night of May 18 and murdered and robbed of \$7,000 in currency, a gold watch, etc. Since the murder two young men of prominent families, who were under suspicion, have disappeared, and their whereabouts are unknown. Two Negroes are also under suspicion, but no arrests have been made.

L. D. Burr, paymaster of the Sloss-Sheffield Steel and Iron Company, was held up by two masked highwaymen on the railroad between Littleton and Flat Top, Ala., and relieved of \$5,000, which was to be used in paying off the men. Less than five minutes afterwards detective George Bodeker, Policeman Joe Nix and Charles Pickard, a Flat Top guard, had shot and killed one of the highwaymen and recovered the money. Harry Hocker and A. B. Robertson have just received the new gasoline launch which they recently purchased in Chicago. The launch is a beauty, and will be removed to Dick's river, where it will ply the waters in the reservoir as soon as their new boat house is completed. —Advocate.

Ten-year-old Florence Owens, of Pittsburg, found a railroad torpedo and tried to flatten it. The explosion mangled the face of the child so that she could hardly be recognized. A piece of the torpedo struck just over the left eye, and the eye is thought to be put out. The child is seriously hurt and may die.

A well-known bachelor citizen, Mr. Sam B. Newell, of the Bronston region of the county, passed away at the advanced age of about 75 years, last Monday, and after services at the residence of his brother Tuesday, by Dr. Harvey Glass, he was laid away in the family cemetery. He was a successful farmer and a highly respected citizen. —Somerset Journal.

County appointees receive free tuition, room rent in dormitories, fuel and light, and if they remain 10 months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern. The Legislature appropriated \$60,000 for a college home for young women and \$30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are fully provided for as required by Congress.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the College to supply.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering, instruction in science and in arts.

The State College of Kentucky, though bearing hitherto the title of "college," is the only institution in the Commonwealth doing, in any proper sense, university work. The completion of the College home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath rooms and modern conveniences for men. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to young women of obtaining a thorough education, in classics, modern language, literature, science, mathematics, logic, metaphysics, history and political economy.

No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.
